## Pete Nottage - Voiceover

### Description:

Creative, versatile, youthful, warm. From deep and serious reads to matey-next-door styles, Pete's lovely. He really is.

It's been well over five years since he started using his voice for money, like some form of vocal whore, and in that time every single client's been more than satisfied. Well, we think they are. They haven't asked for their money back.

With a (non-specific) Northern voice and a tone that'll make you feel all fuzzy inside, Pete can adapt his voice to fit whatever project you want. As long as the money looks tempting. Hell, even if the money DOESN'T look tempting. I mean, a gig's a gig, isn't it?

He can exude the truth or vomit dirty, filthy lies. It's all up to you, really. You're the one with the money.

### Equipment:

Microphones: Neumann U87, Neumann TLM102

Preamp: UAD 710 Twinfinity

Interface: Fireface 400

ISDN: Prima LT

Software: Pro Tools, Adobe Audition

Delivery: As MP3/WAV/AIF delivery via email or secure server delivery, ISDN, FTP, CD overnight

Listen in: Via telephone or Skype

Pete's also set up with a mobile recording studio allowing him to record from anywhere in the world. Exciting stuff, we know. For more information on this, please contact him.
